Annual Candlelighting Ceremony Climaxes Christmas Festivities

Clarkites will participate in a unique candlelighting ceremony next Tuesday evening which will climax pre-Christmas festivities at Clarke. This year each class will contribute, as a family unit, to the symbolic observance of the pre-Christmas season.

Frances Clarke hall where the singing of the official advent hymn, ceremony will begin with the Rorate Coeli. singing of the traditional Clarke candlelighting hymn, "Light of representative, will act as ceremonialist All the World."

Gather in Activity Room

Reciting the rosary, the group will proceed to the activity room where they will take assigned places around the crib which will be in the center of the hall. SLC president Helen Joslin will then explain the significance of the evening's ceremony and Sister Mary Anne Leone, BVM, president of a short greeting to the assembled col-

truer words were never spoken because he is coming to Clarke this very night to be the honored guest at the yuletide social, a Christmas party sponsored by the seniors.

Joe Paradiso, orchestra leader, will provide holiday entertainment with some of his specialty numbers.

Santa Claus will arrive with presents for all, and Frosty the Snow Man will also be on hand to put everyone in the Christmas spirit.

Refreshments will be served in the Union which will also be open for ping-pong, bowling and cards.

General chairman for the party is Camille Jacques. Other committee heads are Joan Schuster, refreshments; Jean Boerschinger, tickets; Catherine Tsou, coat checks; Peggy Ward, entertainment; Margaret Kretschmer, orchestra; Joanne Simpson, decorations, and Rosemarie Schnepf, publicity.

CCP's Select Fantasy For Children's Production

The Emperor's New Clothes, a fantasy adapted by Charlotte Choerpenny, has been selected as the third annual children's production of the Clarke College Players. Tryouts for the parts will begin Jan. 6 and the play will be staged in Terence Donaghoe hall Feb. 23 and 24.

Originally a fairy tale, the three-act play tells the story of two clever elves who reveal the excessive pride of a king by pretending to weave him a robe which, they tell him, is visible only to his loyal and honest followers. While the play will be presented primarily for the children in Dubuque, it will also appeal to an adult audience.

Three junior drama majors, Marianne McCarthy, Cynthia Craemer and Marjorie Costello, will produce the play as a recital project. Miss Mc-Carthy will be the stage director; Miss Craemer the technical director and Miss Costello the business manager.

Faculty and students will meet in the drawing room of Mary

Marjorie Keane, sophomore SLC for her class and will explain the sig-nificance of the "O antiphons" which will then be recited by the sophomores.

Light Class Candles traditional lighting of the candles by the presidents of the classes will follow. Freshman Joan Madden will light the candle of joy, sophomore Bertha Fox the candle of peace, junior Kathleen Morrison the candle of love, and senior Mary Fran Wrenn the college, will light the faculty the candle of gratitude. Each class Places First in Contest candle at the foot of the crib and give will respond to the candlelighting prayer led by its president.

The final candle, that of humility, After the singing of the advent will be lighted by Miss Joslin. The entire assembly will answer the prayer.

Following this ceremony, the juniors will recite the prayer from the Roman martyrology commemorating the birth of Christ. All will join in the singing of the Adeste Fidelis, and the seniors will continue the program by reciting the Christmas gospel according to St. Luke. Lights will then be focused on the crib scene and Sister Mary Anne Leone will lead the prayers for the blessing of the crib.

"Here comes Santa Claus"—and singing of the Hallelujah Chorus by the entire student body

Prince of Peace Is Only Hope for World Peace

Guns, tanks, planes and atomic bombs are the baubles which adorn the tree that overshadows Christmas, 1951. Hate is its sap. Truth has become its tarnished tinsel.

Hardly anyone in our world of materialism and of suspicion looks under the tree. There lies the only joy and hope for future peace-the Prince of Peace

Oh, there's thought of peace—drowned out by vetos in the U. N., at Panmunjom, by cries of billions for defense. And an Infant lies in a cold bed of straw waiting for the world He loves to turn to Him.

And there is talk of peace—over bridge tables and bars. How many people get down on their two knees and ask for it in their hearts? How many turn to the Giver of Peace for aid?

We think about peace—we talk about peace. Do we actually deserve peace? Have we shown in our actions any real love for our fellow man? Do we try to follow in the footsteps of Christ? Or has life become a "dog eat dog" proposition? Can anyone to-

day say, "See how these Christians love one another", Peace can come only through love—love of God and love of neighbor. It can come only through union

with Christ.

Prayer is not the only solution. It has its place but it must be translated into action. We must see Christ in our neighbor—for our neighbor is the temple of the Holy Ghost and an heir to heaven. Our code of life must be that of a Christian—based on love and directed toward eternal salvation. We must remember our part in the Communion of Saints. Only then can we destroy war and hate and realize peace in the world.

Each of us has her own tree. How will it be dec. orated? The ornaments can be everyday justice_ everyday truth-everyday honor. And tinsel might be the never-ending flow of charity twining itself about the tree. Grace, shining forth from us in God. like beauty, can light this tree. Beneath it-and in our hearts-we will place the manger, holding Christ. the King of peace, joy and happiness.

Help Make Christmas Safe, Happy for Everyone

Remember 'way back when you first learned to drive? You wouldn't dare ask for the family car when snow was on the ground. But now that you are older and more experienced, Dad seems to have more faith in your ability to handle the car. So during the coming holiday season you will be doing your share of driving, and perhaps contributing to the dangers of winter traffic.

There's no reason for being the proverbial crepehanger, but perhaps a few words of caution will help prevent a Christmas wreath from turning into a wreath of sympathy. Last year winter traffic accidents brought death to over three thousand persons. The record will be repeated this year unless all drivers make a united effort to prevent acci-

Here are six tips for cold weather driving which are guaranteed to reduce traffic hazards:

1. Get the "feel" of the road. Before you start out, try your brakes while driving slowly and away from traffic.

2. Drive according to road conditions. Remember you may have to stop in a hurry.

3. Use tire chains on ice and snow. They aren't a cure-all for winter dangers but they do help.

4. Keep your windshield, windows and headlights clear of ice, snow and frost. You have to see danger to avoid

this description of the end of knowledge and I'm sure most of you do, too. Why then this idea of a scholarship cup in the race to see which floor can acquire the most knowledge?

If we students are juvenile enough to require a prize as the goal of representative academic achievement, we don't belong in college. The idea of a prize for scholarship was fine when we were 6 years old. Which one of us didn't show our gold stars with pride?

But we are in college and we must realize the responsibility we have to ourselves, if to no one else, to pursue knowledge in order that we become well-integrated persons-complete personalities. Let us then progress toward maturity and not regress to childhood.

Can we pursue and acquire knowledge on our own as mature human beings and see for ourselves what we stand to gain or shall we rest on our laurels and be humbled by being treated as 6-year-olds?

at Muskingcum college. From 1948 to 1950 he acted as NSA chairman on his campus, taking over the Ohio regional chairmanship in his last year.

Notes Progress

"NSA has gone a long way since its beginnings in 1947," Bill said. "We want student governments to realize why they exist, and we try to help them by giving them a chance to exchange ideas, viewpoints and infor-mation."

Bill believes student government has to 'realize its scope in every student. "NSA tries to get student government to concern itself with each student's development. Students may need cultural help or economic assistance, for instance, and they should be able to look to their government for these helps.

"Most of all, we want to know what students think, if they think. NSA represents the American student's viewpoint. We'd like student governments to promote discussions on international affairs. We want the students to know something about poli-

Students Are Lonely

Bill thinks loneliness is the reason for many student problems. "Students have to feel that they belong," he said. "One of the most important things I got out of college was my association with faculty members. I learned a lot just talking with them. I think NSA has done as much as it can to develop similar faculty-student relationships.

How does NSA work? "Through each member school. It finds out what Clarke, for instance, wants to say, what Clarke students think, what their problems are."

Bill outlined some specific things that a school like Clarke can do to carry out the work of NSA.

"You can help in any number of ways. Now that NSA is in South America, for example, we need information on our Porto Rican policy. You Clarke girls can help us with our research problems," he said.

"And if I had to emphasize only one thing," Bill concluded, "it would be that you need NSA and NSA needs you. For what we both want is students adequately trained for responsible citizenship.

was Mr. Gayman's answer to a query posed by JoAnn Flynn in radio broadcasting class. While talk centered around carrier waves, volumes and vibrations Jo asked if there were any broadcasted sounds that humans can't hear.
